

2 W, 5 W, and 20 W PRECISION ATTENUATORS

NOW up to 26 GHz from **\$29⁹⁵** ea. (1-49)  RoHS compliant

For rugged, reliable, and repeatable attenuation when accuracy is key, our customers have come to rely on Mini-Circuits Fixed Precision Attenuators, rated at 2W or 5W for DC-18 GHz signals. And now we've gone even further, with a new series of **2 W models up to 26 GHz**, and a new series of **20 W models from DC-18 GHz!** They feature stainless steel construction, precision attenuation from 1 to 50 dB, and SMA or N-type connectors for 50 Ω systems.

Inherent accuracy, and finely-graded attenuation levels, make our "BW" family invaluable on the bench or in the field. They're a ready solution for extending the range of test instrumentation or meeting circuit- and system-level requirements, such as better matching for high-VSWR components, reducing power to maximize sensitive applications, or protecting valuable circuitry. Just go to minicircuits.com—they're on the shelf and ready to ship today, at the low prices you've come to expect!

See minicircuits.com for specifications, performance data, and surprisingly low prices!
Mini-Circuits...we're redefining what VALUE is all about!
